MANAGEMENT DISCUSSION AND ANALYSIS REPORT

INDUSTRY STRUCTURE AND DEVELOPMENT

On macroeconomic front the financial year 2014- 15 was among the most challenging years. The policy and governance environment impacted the economic scenario. Persistent inflation resulted in the regulator raising the policy rates leading to a high interest-rate environment.

All these factors contributed towards an industrial slowdown and eventually led to a moderation in GDP growth. Raising capital became more difficult and working capital cycles in most industries increased, resulting in cash flow issues across various sectors. The microfinance sector came to a stand still, owing to regulatory hurdles.

However, in the midst of these challenges, there were certain pockets and segments that continued to thrive. Changing economic and business conditions and rapid technological innovation are creating an increasingly competitive market environment that is driving corporations to transform their operations. Consumers of products and services are increasingly demanding accelerated delivery times and lower prices. Companies are focusing on their core competencies
